Reasons to Choose – CDGS 2021

1. Comprehensive

Start your design journey on the right foot with a complete suite of professional design applications for vector illustration, layout, photo editing, and more – specifically designed for your platform of choice. Discover a comprehensive graphics toolbox, jam-packed with everything you need to deliver phenomenal finished products that will surely turn heads. With flexible purchasing options, you can subscribe for a fraction of the cost of comparable competitor software, or purchase and own it outright. It's no wonder CorelDRAW® Graphics Suite 2021 is a proven favorite of graphic design professionals.

2. Productive

Time is one of your most valuable assets, and CorelDRAW® is here to make sure you don't waste it. Tackle client projects quicker with progressive new illustration and photo editing tools that simplify complex workflows and accelerate project setup so you can focus more time on what shouldn't be rushed – being creative. Take advantage of groundbreaking collaboration tools to streamline your design review process and say goodbye to time wasted in a mess of PDF exports, emails, and attachments.

Note: Collaboration features are available exclusively with a CorelDRAW Graphics Suite subscription, licensing with maintenance, or an additional purchase plan for perpetual license customers.

3. Creative

Gain a creative edge with professional graphics tools that push the boundaries of imagination and free you from familiar thinking. Building on CorelDRAW's unique advantage of supporting vector illustration and page layout in a single application, now you can view, manage, edit, and publish all of your project's digital assets in one flexible design space – a whole new playground for creativity! From outstanding web graphics to magnificent print, CorelDRAW® Graphics Suite turns big dreams into even better realities.

4. Innovative

Available on more platforms than ever, and compatible with some of the best technology on the market, CorelDRAW® Graphics Suite 2021 is at the forefront of innovation. Design from anywhere in a hyper-efficient manner, thanks to a true cross-platform solution wired with tools to make you work smarter. Accelerate your creative process with a cloud-based collaboration workflow that offers a dramatically better way to connect with clients and colleagues on designs in real-time. Combine next-generation collaboration with a vast set of features powered by artificial intelligence to gain some serious momentum in a fast-paced, connected world.

Note: Collaboration features are available exclusively with a CorelDRAW Graphics Suite subscription, licensing with maintenance, or an additional purchase plan for perpetual license customers.

5. User-friendly

Transform your creative ideas into polished designs with great success thanks to a wealth of easy-to-use tools and helpful learning resources at your fingertips. CorelDRAW® Graphics Suite's intuitive user interface comes packed with customization capabilities so you can learn and thrive in a comfortable space that's tailored to you. The built-in Hints docker/inspector will have you creating confidently in no time by teaching you how to use tools as you select them. And when you don't want to start with a blank canvas, there's a variety of ready-made templates to design all kinds of projects swiftly – from brochures and business cards to logos and infographics. CorelDRAW is here to help!

CDGS 2021 Reasons to Choose (Existing user focus)

1. Advanced illustration

Find more time for creativity by setting up project frameworks faster with new precision layout tools. When drawing buildings, scenery, or product concepts in perspective, the new Draw in Perspective feature greatly simplifies an otherwise complicated workflow. Choose from 1-point, 2-point, or 3-point perspective, draw or add an existing group of objects on a shared perspective plane, and move and edit objects freely without losing perspective. For more complex designs, you can create multiple perspective groups on one page—each with their own perspective fields. Look no further than the Guidelines docker/inspector to find more productivity gains! Now you can manage custom guidelines, and view guides at world scale.

2. Flexible design space

Go from ideation to output in record time, with new multipage, multi-asset export, and symbols workflows that put you in control of your pages and assets. Building on CorelDRAW's unique advantage of supporting vector illustration and page layout in a single application, now you can view, manage, edit, and publish all of your project's digital assets in one flexible design space - a whole new playground for creativity! Move objects across

pages fluidly, compare designs side-by-side, and freely move pages around to arrange them as you wish. Automatically resize a page to fit its content and use the ultra-convenient Pages docker/inspector to add, delete, search, and sort your pages easily with the help of thumbnail previews. Here you can toggle between single page and multipage editing, giving you creative freedom to work the way you want. If that's not enough, an enhanced Symbols workflow saves you time by enabling you to quickly search for symbols within large libraries and identify them easier among other objects. When you're done designing, create a customized list of page and object items to export with one click!

3. Progressive photo editing

Take the labor out of what you love with powerful new photo editing features purpose-built to elevate images in less steps. Test drive the impressive new Replace Colors tool for a faster, easier route to flawless photos. Enjoy support for the HEIF image format, and take the totally transformed Adjustments workflow in Corel PHOTO-PAINT™ for a spin to apply critical image adjustments non-destructively, in real-time, and in context. With the improved raster workflows in CorelDRAW® Graphic Suite 2021, you'll gain back valuable time to exceed client expectations, every time.

4. Next-generation collaboration

Enough wasted time already! CorelDRAW® Graphics Suite's next-generation collaboration tools offer designers powerful new ways to stay connected with colleagues and clients as remote work becomes our new normal. Gather live comments and annotations from one or many contributors right within your shared CorelDRAW design file. As your reviewers collaborate in real-time to approve a design, you can reply and resolve feedback simultaneously to gain some serious project momentum. An intuitive new project dashboard makes storing, organizing, and sharing cloud files a breeze, and an enhanced Comments docker/inspector streamlines filtering through feedback with the ability to search reviewer comments. Getting to the finish line couldn't be faster with many additional time-saving improvements to CorelDRAW's modern-world collaboration workflow.

Note: Collaboration features are available exclusively with a CorelDRAW Graphics Suite subscription, licensing with maintenance, or an additional purchase plan for perpetual license customers.

5. Everywhere you are, CorelDRAW is too.

Say goodbye to technology constraints and hello to a true cross-platform experience across Windows, Mac, web, iPad, and mobile. Create compelling designs how you want, when you want, and where you want, whether that's at work, at home, or remotely. With a new touch-optimized user experience on web, CorelDRAW.app™ expands what's possible on mobile and tablets, and a new iPad app makes it even easier to design on the go. For those using CorelDRAW.app for business, enterprise accounts can now collaborate on design files in

Microsoft Teams. Available on more platforms than ever, and compatible with some of the best technology on the market, CorelDRAW® is everywhere you want to be!
