

Build an environment of productivity and efficiency

Dropbox Business allows construction teams in the office and on the job site to access, edit, and share project files anytime, on any device. Employees can coordinate plans and budgets anywhere while working seamlessly with managers, on-site employees, or external contractors. As the tool employees already rely on, Dropbox can help you empower your workforce, make projects more efficient, and drive your business forward.

Anywhere, anytime productivity

- Share seamlessly with contractors, architects, or clients with a tool they already use
- Ensure fast, reliable access to company data, even when offline or with limited connectivity
- Reliably upload and collaborate on large CAD/BIM files, in the office or on site

Deploy with minimal investment

- Save time with a tool that requires no training for employees and partners
- Easily onboard and offboard sub-contractors or seasonal employees, all while retaining and securing company data
- Deploy and manage IT at scale with SSO and Active Directory integrations, and leverage Domain Management tools to migrate existing Dropbox accounts
- Compatibility across systems adds superpowers to existing hardware and software, while keeping backups and version history of company data

Features construction customers love

- View and comment on PDFs, Photoshop documents, and Excel files on mobile with advanced previews
- Easily upload photos from the job site on mobile devices and share with project managers
- Go paperless with doc scanner, which scans, reads, and indexes receipts or documents
- Collect bids and organize files or photos from various sites with file requests

Integrates with business-critical apps

Integrations with business-critical applications enhance existing workflows:

- Plangrid
- Bluebeam Revu
- AutoCAD 360
- Adobe
- Office 365

"To see a 300% ROI in our third year was totally beyond our expectations and has transformed how our business works."

- Kevin Underwood, Service Business Analyst, Brandt

Dropbox for Business is a favorite solution for construction companies and their employees
